

The Easy Hanger™

a folding hanger product perfect for the home and beyond

Features:

- Single action lock/unlock feature allows product to easily extend, retract, and lock into place
- Internal mechanism eliminates free-play and ensures that the arms don't slip under heavy load
- Product slides in/out of the neck area and reduces damage to your valuable clothes.
- Beyond the home; product fits into briefcases, suitcases, gym bags, purses, glove compartments, etc.

UNITED STATES & INTERNATIONAL PATENT PENDING

The Easy Hanger™

If you have ever found hanging t-shirts, pullovers, dresses, shirts or anything with a small neck area frustrating, EasyHanger is your answer. The patented single action lock/unlock mechanism makes it a breeze to hang clothes simply and without damage. Simply insert through the neck area and lift arms until they lock into place. To release, simply press the button! In most cases you won't even need to remove the hanger from the clothing rack! EasyHanger is ideal for home users, hotels, fashion/department stores, and cloak room facilities

The sophisticated, unique, self-adjusting locking mechanism with the deflector strip eliminates free-play and ensures that the arms don't slip under heavy load. This along with the use of high quality materials ensures that EasyHanger is very durable and light.

In addition to the home, EasyHanger is great for people on the go as its space saving design ensures that it takes up less room than regular hangers. It comfortably fits into most bags including gym bags, briefcases, purses, and suitcases. EasyHanger is also great for use in cars as you can remove and hang clothes very easily and often without having to take the hanger from the handle. It also fits into glove compartments of most cars and can be put away whilst not in use to ensure better visibility.

The Easy Hanger is manufactured by a company in The United Kingdom. This company is currently seeking high volume customers in The United States. Contact 20 FIRST Innovative Creations today to obtain more information about distributing this unique product.
